

AI & Statistics 2014

Seventeenth International Conference on Artificial Intelligence and Statistics

April 22 – April 24, 2014, Reykjavik, Iceland

Machine Learning Summer School

April 25 – May 4, 2014, Reykjavik

Dear Sponsor,

The International Conference on Artificial Intelligence and Statistics (AISTATS) is an interdisciplinary gathering of researchers at the intersection of computer science, artificial intelligence, machine learning, statistics and related areas. Since its inception in 1985, the primary goal of AISTATS has been to broaden research in these fields by promoting the exchange of ideas among them. More information about AISTATS 2014 can be found at <http://www.aistats.org>.

The Annual Machine Learning Summer School (MLSS) offers an overview of basic and advanced topics in machine learning through theoretical and practical lectures given by leading researchers in the field. MLSS attracts international students, young researchers and industry practitioners with a keen interest in machine learning and its applications.

We invite contributions from your organization to sponsor AISTATS 2014 and the accompanying MLSS. Sponsorship brings with it the following key benefits:

- Direct outreach to experts from industry and academia
- Disbursal of merchandise, information brochures, souvenirs
- Special recognition within the community
- Direct outreach to top quality students and young researchers.

To help determine the level of contribution, we welcome sponsorship at 4 different levels for either the conference or the summer school or a combination of the two.

Sincerely yours,

*Dorota Główacka,
Sponsorship Chair*

*Samuel Kaski,
Program Chair*
